NORAC GIVES BACK TO LIVESTOCK INDUSTRY

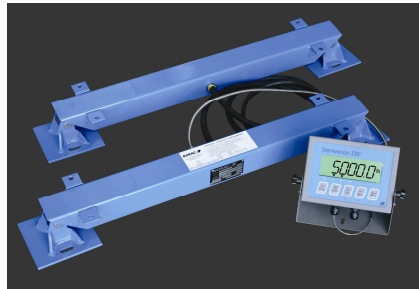

Saskatoon, SK -- Today NORAC Systems International Inc. announced that they will provide an *Instant Cash Rebate* on every sale of the 5000U Scale Package purchased direct from NORAC.

NORAC will provide a \$400 instant cash rebate on each purchase of the 5000U Scale Package for livestock use. To be eligible for the \$400 instant cash rebate, orders must be received by NORAC by May 31, 2010.

The all-steel construction of the scale has been proven over 30 years of field use. The Instaweigh™ Digital Animal Scales are heavy duty electronic load cell weigh scales that cover a variety of weighing applications. They easily mount under any cattle squeeze, hogcrate, feed hopper, or custom platform.

These scales are balanced and calibrated at the factory eliminating installation errors and the need for an installation technician. Each load bar has built in horizontal checking and unique flex bases to ensure accurate weights in the roughest conditions.

“We are happy to provide this significant saving to the end user,” said Murray Stewart, NORAC’s Canadian Weigh Systems Manager. “This instant cash rebate will assist farmers during this difficult time in the livestock industry.”
