

Instaweigh™ Single Animal Scale

The simple solution to animal weighing.

The Instaweigh™ System For Animal Scales

Unmatched for Accuracy and Durability

Simple Solution To Animal Weighing

The Instaweigh™ Digital Animal Scales are heavy duty electronic load cell weigh scales, available in three capacities, and cover a variety of weighing applications. They usually mount under any cattle squeeze, hogcrate, feed hopper or custom platform.

All Weather Use

The All-Steel construction of the scale has been proven over 30 years of field use. Load cells are coated for permanent outdoor installation. There are no moving parts to wear out, and no costly maintenance. All of the Instaweigh™ Scales will give you years of trouble free service.

Easy Read Indicator

The Model I30 Digital Indicator features a large backlit readout that's easy to read even in direct sunlight. The weight is displayed in lbs. or kgs. at the push of a button.

It operates on multiple power sources. A computer output is standard allowing you to transfer your animal weight to a PC at any time.

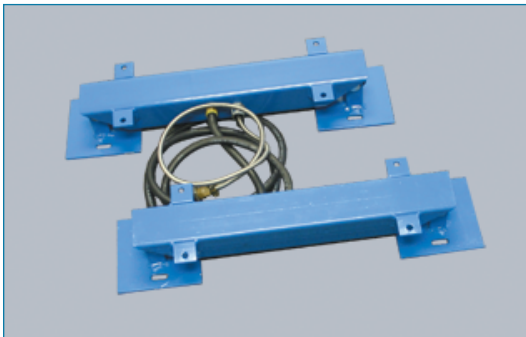

Quick, Accurate Weights

Load Bars provide a solid scale base by eliminating the platform movement that could frighten livestock. This, in combination with Instaweigh™'s lock-on feature, guarantees an exact reading regardless of how lively the animal.

Factory Calibration

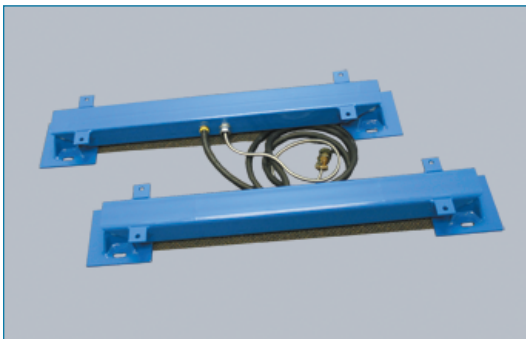

Calibrating and balancing at the factory eliminates installation errors and the need for an installation technician. Install the scale, press the Zero button, and you're ready to weigh. This also allows you to compensate for manure, mud or snow build-up.

NORAC's load cells - the heart of every system - are constructed of rugged steel with precision bearing components balanced and calibrated at the factory for years of worry-free performance. Each load bar has built in horizontal checking and unique flex bases to ensure accurate weights in the roughest conditions. In fact U Series load bars will take 10 times the shockload of a shear beam cells.

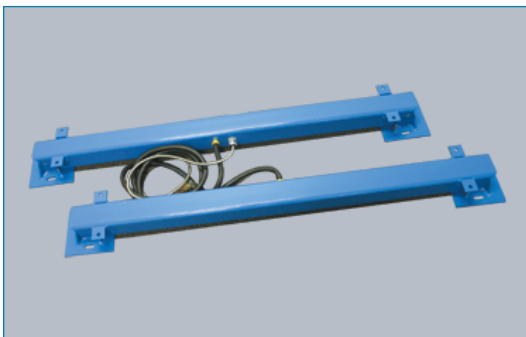

2500U Scale Package for Alley Scales

- Ideal for an alley way scale system or for hog weighing
- Capacity of 2500 lbs (1250 kg)
- Finest reading is 0.5 lbs (0.2 kg)
- Available length is 22"
- Bar height is 4"
- Bar spread is 5'
- Shipping Weight 49 lbs

5000U Scale Package for Manual Chutes

- Guaranteed for use under a manual chute
- Capacity of 5000 lbs (2500 kg)
- Finest reading is 0.5 lbs (0.2 kg)
- Available length is 33"
- Bar height is 4"
- Bar spread is 8'
- Shipping Weight 69 lbs

10000U Scale Package for Hydraulic Chutes

- Guaranteed for use under a hydraulic chute or a buffalo chute
- Capacity of 10000 lbs (5000 kg)
- Finest reading is 1.0 lbs (0.5 kg)
- Available length is 48"
- Bar height is 4"
- Bar spread is 8'
- Shipping Weight 115 lbs
